AAPM's mission is to serve its global membership and stakeholders as a world leader in educating and reinforcing the international knowledge of executives and potential leadership of institutions. AAPM™ now has representative offices in the US WTC N.O. Offices, Hong Kong, Beijing, India, Moscow, Istanbul, Dubai, Athens, Guyana, Puerto Rico, Bahamas, Kuwait, Latin America and South America, Singapore, The Caribbean, Europe, and now the Philippines. AAPM™ mandates consent to high standards of professional conduct, and AAPM activities are International in nature and scope.

THE AMERICAN ACADEMY OF PROJECT MANAGEMENT

AAPM ® “Transcending to New Heights”

A welcome note from the Founder of the USA Commission

Graduate credentials are undergoing a revolution globally. The applications of project management are widespread in government, military, construction, technology and more. The IPMC and AAPM Board of Standards was established by leader in the USA PM Industry looking to mandate government recognized and accredited education as a path for Management Certification. Thus, the AAPM ® is the first to require government recognized credentials and degrees as a Standard for membership and certification.

Rather than create broad designation for anybody who has completed high school, the IPMC has taken a graduate approach to our program design and created post-nominal designations and executive programs for college educated and graduate educated sector of project management professionals. As such, The IPMC training program and enrollment requirements ensures that each IPMC and AAPM Trained professional maintains the highest standard of demonstrated education and capability for a leadership or executive position in Project Management.

In the last few years, IPMC ™ and AAPM ® have had a meteoric rise in membership. We have expanded our operations globally with new alliances, training distribution centers and operations in the UK, Asia, India, USA, Caribbean, Africa, Europe, and throughout the Middle East.

Of course at home in the Americas, we are at the forefront of action with increased governmental and academic recognition from the likes of the University of California Silicon Valley, City University of New York, Queens College, AEDE Spain, Scottish Universities, The University of Atlanta and many more. The AAPM is also listed in the US Department of Education Registry and in many other authoritative registries. Graduate applications for the MPM Masters Certification and the CIPM international qualifications are now possible through more than 40 of the world's leading government approved colleges and universities that offer Project Management related Graduate Degrees. Although it can take 2-4 years to complete a degree with one of our IPMC ™ recognized programs, we can offer an intensive Certification Training Programs from our alliance accredited law school program to groups that require certification. This Executive Certification Training Model is available on location, in-house, on away at pre-determined resorts as per a corporate request.

Membership growth is accelerating with members in 120+ countries. Our quickest growing regions internationally are in the EU, Latin America, Asia, India, the Middle-East and Africa. Our relationships with leading fortune 500 company executives & employees continues to be a key strategy in defining the practical direction of our programs as our corporate members or clients have identified key development needs for their staff and for time management.

Together we are truly “Leading the World in Graduate Project Management ™”

Cordially and Kindest Regards,

Professor Dr. Geo. Mentz
JD, MBA, MPM®, CIPM®
AAPM ® Board of Standards Worldwide, CEO

THE AMERICAN ACADEMY OF PROJECT MANAGEMENT

About the American Academy of Project Management ® – Board of Standards ™

The AAPM ® American Academy of Project Management ® was originally established in 1996 by the Founders Board of the Graduate Institute of Executive Leadership and Development which was a College Chartered Organization in America. The IPMC ™ International Project Management Commission ™ was originally established as a professional Board of Standards and Ethics for management consultants, marketing specialists, executives, professors, leadership analysts, and trained military. The Commission is also in direct alliance with the International Institute for Professional Analysts and the E-Business Institute which helped establish the Global e-Business Board. The IPMC ™ currently recognizes nearly 20,000 Professors, Managers, PhDs, Government Employees, Scientists, Lawyers, Military, & PM Masters Degree Holders as executive members in over 150+ nations. The IPMC could be much larger, but we don't accept candidates without college education or equivalency.

AAPM®/IPMC established its first overseas alliances in Europe, and from that point the membership has quickly grown to cover over 150 separate nations. Those members are supported through college and alliance offices in UK, Canada, Latin America, EU, China, Russia, Egypt, Singapore, Beijing, USA, Hong Kong, The Bahamas, Silicon Valley, and South Africa. As there had not been a graduate professional project manager organization specifically for Executives, Management, Team Leaders, MBAs, Military Officers, PhDs and accredited degree holders, The AAPM ™ has met this need and become the organization of choice for highly educated individuals, leaders, and industry experts. This is because The IPMC ™ and AAPM require an accredited college degree or equivalent for membership and certification. The AAPM receives its training license, sanction and authority from the IPMC ™ International Project Management Commission ™.

Officially expanding overseas in 2001, the CEC and the IPMC © International Operations operates with strategic representatives offices in UK, Singapore, Beijing and Cairo. The IPMC ™ Global Board of Standards is Headquartered in

the United States of America. The Board of Standards has sitting executive members from Hong Kong, Singapore, Philippines, Canada, EU, UK, South Africa, and many more locations. Furthermore, AAPM ™ Board has several global certifications available for its membership which are the: CIPM ™ Certified International Project Manager and MPM ™ Master Project Manager i.e. The Masters Certification, and The PME ™ Project Manager E-Business. The Board also offers certifications in Quality, Human Resources, and Risk Management. The AAPM ™ is the regulatory body for the much sought after AAPM ™ and CEC Designations and Credentials. The AAPM ™ Executive Designation Programs provide the assurance that the holder has met the suggested criteria for graduate credentials set out in the US Supreme Court Decisions. Further, the AAPM board certification requires meeting 6 different levels of global criteria including ethics and our global body of standards which are the 1st Standards specifically based on the methodology used by government agencies and departments. Acceptance into the AAPM ™ is a high distinction and requires the holder to possess a graduate level portfolio of skills and knowledge. Acceptance statistics are not high, and the designation when achieved is a high honor strictly for accredited degree holders or individuals with equivalent backgrounds.

AAPM's mission is to serve its global membership and stakeholders as a world leader in educating and reinforcing the international knowledge of executives and potential leadership of institutions. AAPM ™ now has representative offices globally while AAPM ™ mandates high standards of professional conduct with activities are International in nature and scope.

AAPM ® Certifications, Designations and Recognitions

IPMC ™ is delighted to have specific Graduate Designations listed on the Department of Education Websites for Training and Certification Institutions.

THE AMERICAN ACADEMY OF PROJECT MANAGEMENT

IPMC is currently recognized on the Dept. of Education official website where our certification standards and information is disclosed: Here are the AAPM Certifications:

- **MPM ® Master Project Manager**
- **CIPM ® Chartered International Project Manager**
- **PME ™ Project Manager E-Business**
- **MQM ™ Master Quality Manager**
- **CPRM ™ Certified Project Risk Manager**
- **CHRA ™ Certified Human Resources Analyst**
- **CPE ™ Certified Planning Engineer**
- **MCP ™ Management Consulting Professional**
- **CEC ™ Certified E-Commerce Consultant**
- **CPC ™ Certified Project Consultant**
- **CPP Certified Product Planner**
- **MCPM Master Construction Project Manager**

Each of the IPMC ™ & American Academy of Project Management certifications, which are registered trademarks of the IPMC ™, can be used as a post-nominal designation either in its full form or in an abbreviated form.

e.g. Dr. William Johannson, MPM®, CPE, PME
John Lee, CIPM®, MCP, CHRA

The IPMC ™ is otherwise recognized by the Board of Standards, Department of Education, The Institute of E-Business Consultants, The Graduate Institute of Executive Leadership Development, & official listing in the project management registry ABDC.

For a complete listing of both professional designations and graduate-level designations, please refer to the International Project Management Commission ™ website at www.aapm.edu or www.certifiedprojectmanager.org

AAPM ® Certification Charters & Masters Qualifications

The American Academy of Project Management ® offers a range of programs for the Industry, Senior Executives and Management, and Corporate professionals in the Middle-East and Asia. Programs can be taken individually as an 'Executive Charter or Certification' program or collectively to achieve a Masters Certification or International Diploma through one of our many accredited partners.

Some of these programs are offered in the public arena by partner providers such as our Alliance and Official Training Programs in: Silicon Valley, New York, Beijing, Cairo, Jordon, Saudi Arabia, India, Australia, Hong Kong, Singapore, United Kingdom, South Africa and more, but others are specifically designed for deployment in-house in a customized fashion. Individual program units typically run for 4 or 5 days and require specific EDUCATIONAL prerequisites for entry, which vary depending on the award offered. The program details, by competency area, are classified as follows:

1. CIPM ® and the primary "generalist credential" for managers
2. PME as the Technology Based project management credential
3. MPM ® for Advanced Level Managers or Executives "Masters Certification"
4. Specialist Designations in: Risk-CPRM, Quality- MPM, Human Resources-CHRA, and E-business CEC ©

Awards are offered first and foremost by the IPMC ™ through the American Academy of Project Management ® Training Worldwide, however, The MPM ®Masters Certification can be gained by attending one of our 40+ recognized international degree programs. Other designations are also offered through our alliance with the "CEC" Institute of Certified E-Commerce Consultants and the GBM Graduate Board of Management Worldwide Board of Standards.

AAPM—Project Management Program Descriptions

MPM® Master Project Manager

By attending this informative course, you will appreciate the benefits of accurate project management. Master the art of efficient project delivery. Use project analysis as a key business driver. Comply with major international project management standards. Successfully determine the appropriate technological solutions for your projects. Develop a comprehensive tool-kit for successful project management that you can use immediately.

CIPM™ Certified International Project Manager ®

This course will explore how to formalize the process of project delivery within your organization. Examine the project delivery cycles. Discover tools and techniques that aid in managing the results of various categories of project structures. Learn how to develop effective strategies to manage.

PME© Project Manager E-Business

PME Project Management e-Business involves many specialized skills including: management, leadership, international law, marketing/SEO, ecommerce and IT concepts. The oldest e-Business Project Management Credential

CPE™ Certified Planning Engineer

The intention of this designation is to recognize the analysts and professionals who meet demanding requirements of planning and scheduling assets of experience, education, skill, knowledge and ethical qualifications. The CPE™ requirement is too established to recognize today's advanced planning & engineering professionals in the industry and to fairly measure their education, skill, experience and management practices.

CPRM™ Certified Project Risk Manager

By attending course, you will be able to understand the importance of projects and legal scope issues in the contemporary organization. Learn the critical impact of the problem (project) definition phase on project success. Explore the three major areas of project development from a risk management perspective. Understand the role of project stakeholders in all aspects of the project. Discover how to embed the principles of risk management within the project management process and how to develop your own set of tools and techniques for optimizing project performance.

CHRA Chartered Human Resources Analyst

A globally known HR Designation also known as the HRPM Human Resources Project Manager. Graduates have achieved management level HR skills in relation to project management including quality, communications, and risk.

MQM Master Quality Manager - Master of Quality Control

This designation is modeled after the quality management systems suggested by the Federal and National Governments and top corporations and business schools worldwide.

Project Management Designation PMD

Entry Level Credential for obtaining the knowledge of the fundamentals of Project Management. This course is not offered often, and corporations and universities must request this specific course. The PMd program leads to and makes you eligible for the CIPM and also the MPM Graduate Certification.

MCP® Management Consultant Professional

This is an executive program exploring the world of management consulting. The program is designed to facilitate a framework for providing management counsel to clients, institutions in the public and private sector. Candidates will incorporate the informational fabric from the core curriculum and become open to examples of comprehension in their technical expertise and experience in global consulting roles to organizations.

RBA™ Registered Business Analyst

You will explore key areas including how to understand and manage strategic business analysis, benchmarking, competitive intelligence, and analyze information.

MMC Master Management Consultant ®

As consultants gain experience, they often become solely responsible for specific projects, taking on more responsibility and managing their own hours. A high percentage of management consultants are self-employed, partly because business startup and overhead costs are low. Since many small consulting firms fail each year because of lack of managerial expertise and clients, persons interested in opening their own firm must have good organizational and marketing skills.

CPC™ Certified Project Consultant

Project Consulting Credential for obtaining the knowledge of the Advanced Topics of Project Management.

CEC – Certified e-commerce Consultant – The oldest e-commerce consulting designation in the world. Covers issues in Project Management including management, quality and marketing.

CMA Certified Marketing Analyst – The premier marketing credential for the 21 century. Covering SEO, SMM, Team Management and more.

CLC Certified Leadership Consultant – Covering all aspects of leadership and entrepreneurship.

CPP Certified Product Planner – The Premier course in product planning and marketing.

We are extremely excited that our Training Alliance has teamed up with NBC to be able to offer college credit and the possibility of tuition reimbursement for the MPM Certification course. If you have any questions, please feel free to contact us and we would be happy to discuss your specific situation. Call us at 614-309-6565 or [send us email](#).

Accredited Providers

Do you want to become an approved training provider or AAPM certifications and professional development programs

Email us to apply

THE AMERICAN ACADEMY OF PROJECT MANAGEMENT

AAPM® - Project management is the world's fastest growing profession and in today's ever-changing business environment, organizations demand multi-skilled individuals who can manage far more than their predecessors. During this intensive course you will examine the delivery cycles that are routinely encountered in business today, discover tools and techniques that aid in managing the results of various categories of project structures and learn how to develop effective strategies to manage these projects.

Upon satisfactory completion of this program you will receive the award of Board Certification from the American Academy of Project Management (AAPM), which is recognized in over 150 countries. You will then be able to use the designation CIPM™ on your business cards and resume.
